Subject: FY 2014 Second Quarter Financial Status Report

Date: January 22, 2014

Attached is the FY 2014 second quarter financial report. The second quarter report indicates that spending is nominal. Our most significant item, the cost of salaries, appears to be in line with our projections and will show a small surplus at years end.

There are three areas that we have identified that will require transfers in modest amounts later in this fiscal year. As of now we have a budget deficit in our special education legal line item. This is an account that is a hard to predict and has generally been funded minimally at \$25,000. It is likely we will be able to balance this from another area of special education. The contracted services line item at the high school is in deficit as we added the SRO to the program after budget adoption. Lastly, as the committee is aware we will have a small deficit to cover in facilities due to the concession stand. We expect to be able to do so within the facilities budget.

Beyond the small salary surplus, we have a surplus indicated in health insurance as this has trended positively. It is still too early to determine the total amount but it may be 3% of the budget. This is actually a pretty small margin for error, but it is valuable in dollars. Also, regular education transportation will have a small surplus it appears.

I have highlighted the key areas, please let me know if you have any other questions.
